

Community Garden News – Two snow peas

Our snow peas kept going over the winter and have produced two peas this week. There are a couple of smaller ones, so we're happy to have such an early harvest – even if it is only a few.

There were five of us in the garden this week, and we were busy planting seeds, transplanting seedlings, turning compost and doing other routine stuff.

We intend to plant a few different vegetables each week or fortnight so we can extend our harvest period. We planted cucumber, peas, pumpkin, tomatoes, lettuce, onion, and transplanted some lettuce and mizuna.

On Friday of last week we hosted the group from the Kyneton Community and Learning Centre who are doing the Introduction to Permaculture course. We talked about compost tea, wicking beds, biochar, native bee hotels, chook feeders, hot houses, edible food forests and much more.

As the Community Garden activities are all coordinated by Kyneton Transition Hub please direct any enquiries to KynetonTH@gmail.com or phone Julie on 5422 3023. Or check out our website: <http://kynetontransitionhub.com>. We're happy to host you at times that suit you and provide you with information on wicking beds, compost tea, and other topics.

Join us any Tuesday during school terms from 9.30 am (to about 11.15).

Workshops are held on the second Tuesday of the month during school terms at the usual time.

If Tuesdays don't suit, please call us for other times.

During school hours please check in at the school office first.
